DEVICE DESCRIPTION

The **easy-700-3W** is our most advanced fleet tracking device powered by 4G LTE technology, with the abbreviation 3W representing three wires (power, ground, and ignition). The device is a universal solution and is compatible with passenger cars, light duty trucks, medium duty trucks, and heavy duty trucks. It is built with advanced components and the technology needed to capture, store, and transmit the high volumes of data required for continuous and reliable fleet tracking.

KEY FEATURES - BENEFITS

- Reports every 60 seconds (plus turns) when vehicle is on, with location events captured every 5 seconds and every 4 hours when vehicle is off.
- Equipped with a fully functional Accelerometer to accurately capture hard braking, hard acceleration, and hard cornering events.
- Internal dual cellular and GPS satellite antennas reduce installation time and support a covert installation.
- Internal back-up battery allows for continuous tracking even if the device is compromised, tampered with, or disconnected.
- Includes "smart power management," which allows the device to recognize when a vehicle is turned off, triggering the device's "sleep mode" and significantly reducing the possibility of the device causing any vehicle battery issues.
- Utilizes the Category 1 LTE 4G cellular network to transmit all the vehicle generated data.
- Lifetime warranty.

easy-700-3W

FLEET

DEVICE SPECIFICATIONS

Size:

103mm x 53mm x 18.5mm

Weight:

72 grams

Operation Temp. Range:

-40c to 85c

Wireless Specs:

LTE Cat 1. LTE band 4, 13 (Verizon)

LTE band 2,4,12 (T-Mobile)

Power Consumption:

-When sleeping: 6mA@12VDC

-When tracking: 70mA@12VDC

Operating Voltage:

6-36 VDC Location Accuracy:

+/-2.0m

CEP Internal Back-up Battery

-When sleeping – approx. 8 hours*

-When tracking – approx. 2 hours*

Certifications:

FCC, Verizon

Verizon Wireless

Device LED's:

-Amber LED for cellular connectivity

-Green LED for GPS location lock

*Times vary based on coverage and where vehicle is parked

DEVICE SOFTWARE HIGHLIGHTS

- Web and cloud based, providing access to fleet information, limited only by access to the internet; includes a mobile viewer application that will auto-size for a smartphone or tablet.
- Provides fleet tracking updates every 60 seconds, plus turns.
- Supports "closest vehicle" dispatch functionality, which provides accurate ETAs, reduces wasted time between jobs, and improves customer relations.
- Provides real-time location, speed, heading, stopping, and mileage reports.
- Tracks maintenance schedules based upon real-time mileage information, engine hours, and time period.
- Provides hard braking, hard cornering, and hard acceleration information to help reduce or eliminate unsafe driving behavior.
- Monitors both posted speed and a maximum speed threshold.
- Monitors idling to reduce fuel consumption and unnecessary wear on vehicles.
- Provides exact arrival and departure data, which will increase billing accuracy and reduce billing write-offs and disputes.
- Provides the ability to create customized zones (landmarks) and receive data relative to the entering, exiting, distance traveled, and time spent within each customized zone.
- Access to over 40 reports and 15 real-time alerts.
- Mapping with Google Street View and Google Earth integration.
- Unlimited number of users.
- Custom map icons.
- Provides 18 months of historical tracking data on the reporting suite and access to 6 months of visual data on the mapping tab.
