

# easy-195-PNP

## FLEET

### DEVICE DESCRIPTION

The **easy-195-PNP** is our most advanced plug-and-play fleet tracking device, powered by 4G LTE technology that requires virtually no installation. It simply plugs into the vehicle's OBDII port in seconds. The device is compatible with most cars and trucks manufactured after 1996. It is built with advanced components and the technology needed to capture, store, and transmit the high volumes of data required for continuous and reliable fleet tracking.

### TARGET MARKETS

- Construction
- Dry Cleaning
- Electrical
- Equipment Rental
- Landscape
- Masonry
- Paving
- Pest Control
- Plumbing
- Security Patrol
- Sewage/Water
- Snow Removal/Plow
- Transportation
- Tow
- Utility
- Waste Management
- And many more

### KEY FEATURES - BENEFITS

- Reports every 60 seconds (plus turns) when vehicle is on and every 4 hours when vehicle is off.
- Equipped with a fully functional Accelerometer to accurately capture hard braking, hard acceleration, and hard cornering events.
- Internal cellular and GPS satellite antennas reduce installation time and support a covert installation.
- Internal back-up battery allows for continuous tracking even if the device is compromised, tampered with, or disconnected from the OBDII port (lasts approximately 60 minutes if the vehicle/unit is moving, longer if its stationary).
- Stores up to 4MB data points if cellular connectivity is lost and forwards data when connectivity is restored.
- Includes "smart power management," which allows the device to recognize when a vehicle is turned off, triggering the device's "sleep mode" and significantly reducing the possibility of the device causing any vehicle battery issues.
- Lifetime warranty.

FLEET

## DEVICE SPECIFICATIONS

**Size:**

1.7" x 2.5" x 0.98"

**Weight:**

< 1.8 oz.

**Operating Temp. range:**

-30 to 167 F

**Wireless specs:**

LTE Cat 1

- LTE band 4, 13 (Verizon)

**Power consumption:**

- when sleeping 66mA @ 13VDC

- when tracking 114mA @ 13VDC

**Operating voltage:**

9-16 VDC Vehicle Systems

**Location accuracy:**

6.6 Feet

**Device LEDs:**

Green - GPS

Amber - Cell

Red - OBD

**Certifications:**

FCC, CE, IC, PTCRB, and

Verizon Wireless

**Internal back up battery:**

200 mAH

-when sleeping 3 hours

-when actively tracking: 1 hour

## DEVICE SOFTWARE HIGHLIGHTS

- Web and Cloud based, providing access to your fleet information, limited only by your access to the internet; includes a mobile viewer application that will auto-size for a smartphone or tablet.
- Provides fleet tracking updates every 60 seconds plus turns, with locations captured every five seconds.
- Supports "closest vehicle" dispatch functionality, which provides accurate ETAs, reduces wasted time between jobs, and improves customer relations.
- Provides real-time location, speed, heading, stopping, and mileage data.
- Monitors both posted speed and a maximum speed threshold.
- Tracks maintenance schedules based upon real-time mileage data, engine hours, and time period.
- Provides hard braking, hard cornering, and hard acceleration information to help reduce or eliminate unsafe driving behavior.
- Access to over 40 reports and 15 real-time alerts.
- Monitors idling to reduce fuel consumption and unnecessary wear on vehicles.
- Provides exact arrival and departure data, which will increase billing accuracy and reduce billing write-offs and disputes.
- Provides the ability to create customized zones (landmarks) and receive data relative to the entering, exiting, distance traveled, and time spent within each customized zone.
- Mapping with Google Street View and Google Earth integration.
- Unlimited number of users.
- Custom map icons.
- Provides 1 year of historical tracking data, with 2 years of historical data archived for future reference.
