

The Tracking Times

The Easy Fleet GPS family would like to extend our warmest and deepest thoughts and prayers to you, your families, your employees, and their families.

Easy Fleet GPS is waiving all late fees through the end of 2020.

Thank you for being such loyal customers!

A referral is the best compliment a business can receive. Easy Fleet GPS offers a referral program where you can earn FREE service. Please contact us at info@easyfleetgps.com

Is there value in using Landmarks? Yes!

Many people have heard the term "Landmarks", but aren't exactly sure what they are or their value.

In simple terms, a Landmark is a boundary around an office location, company yard, job site, distribution center, customer location, or any location your employees may visit.

Also, if your employees take the company vehicles home, you may want to set a landmark around their house.

Protect your heavy equipment and assets.

One of the biggest costs to a company is the theft and replacement of assets and equipment.

Our Easy Fleet GPS Equipment and Asset Management solution will significantly eliminate this risk.

Whether you have yellow heavy equipment on a construction site, combine farm equipment, generators, trailers, or any valuable equipment, we offer an asset management solution to fit your needs. With the ability to set up unlimited landmark boundaries, you will be notified if a piece of equipment leaves a job site or company yard.

We have made some nice upgrades to the Easy Fleet GPS Mapping Platform.

Over the past month, the Easy Fleet GPS team has made some nice enhancements to our mapping platform.

All of the "how to" videos have been updated. So, if you need to know how to navigate through the mapping platform, run a report, set an alert, or set up a landmark, you can click on the box with the ? in it to view the "how to" video.

Now you can view the GPS and cellular (RSSI), signal strength from the mapping platform. From the control panel, left click the vehicle you would like view and select VIEW LOCATIONS. Once in the locations tab, click the VIEW button and select Satellites and RSSI (cellular).

GPS signal will be Good to Excellent when a unit locks on 8 plus satellites. The cellular (RSSI) signal will be Good to Excellent when the unit is reporting a number greater than -90.

Equipment - Asset -Trailer Tracking Unit

Easy Equipment, Asset, and Trailer Tracking Unit

The Easy Fleet GPS heavy equipment and trailer tracker unit is specifically designed for all heavy equipment, powered assets, and trailers. The device is built to withstand the harshest environment and roughest elements.

Easy Fleet GPS can help you manage your heavy equipment and trailers. You now have the ability to know how long a piece of equipment has been sitting at a job site and can now monitor engine hours and use.

Our tracking units can aid in the recovery of a stolen piece of equipment or trailer.
