

The Tracking Times

The Easy Fleet GPS family would like to wish you and your family a very safe, healthy, and Happy Holiday season.

We want to thank you for your support during the challenges of 2020.

We look forward to a brighter 2021.

We are grateful to have such amazing and wonderful customers!

Easy Fleet GPS is proud to introduce our latest and most advanced platform - Easy Fleet Advanced.

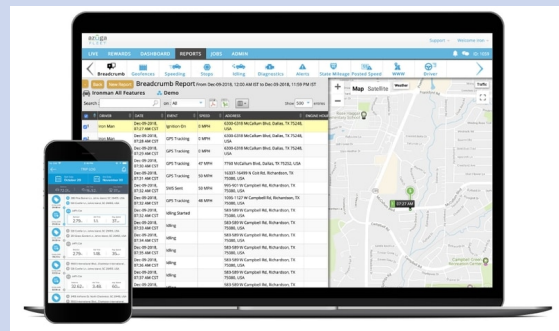

Easy Fleet GPS is excited to introduce our newest and most advanced GPS tracking solution, Easy Fleet Advanced!

Our goal at Easy Fleet GPS is to offer the best solutions that will support the needs of every customer.

Our current platform, Easy Fleet Flex provides industry-leading solutions and features.

Our **new** Easy Fleet Advanced platform takes GPS tracking to a whole new level by offering one of the most robust Driver Scorecard with a rewards program, a Dash-Camera with AI (Artificial Intelligence), and all of the features of GPS tracking.

Now you have a choice between our Flex platform and our Advanced platform.

Please feel free to contact us to schedule a demo and to see which platform works best for your needs.

Easy Fleet GPS now offers one of the most enhanced and robust driver scorecards in the industry.

Our new Easy Fleet Advanced platform offers an amazing Driver Scorecard.

You will have real-time driver behavior data at your fingertips and will be able to rank your driver based on key driving behaviors.

Our platform allows you to reward good driving behavior in real-time, right from the user interface.

Let us help you reduce costs, reduce risks and accidents, and build a safer more responsible fleet of drivers.

Easy Fleet GPS is proud to offer forward/driver facing dash cameras with AI.

Safety, Safety, Safety.

With our new dash camera, you can have the confidence and peace of mind that you are doing all you can do to reduce your risks and liabilities while protecting your company.

More and more insurance companies are requiring dash cameras in commercial vehicles. Our Safety Dash Camera allows you to monitor your drivers and capture valuable data and events in the case of an accident.

Our forward-facing/driver-facing camera provides a full view of driving events and behavior.

Our AI (Artificial Intelligence) version allows you to view if the driver is distracted or texting while driving.

For more information, please contact us.
