

The Tracking Times

Ask us about the Easy Fleet GPS Referral Program.

You can earn FREE service and a \$100 Gift Card for referring customers!

Please call us at 949 390 4837 or email us at info@easyfleetgps.com.

We are grateful to have such amazing and wonderful customers!

Easy Fleet GPS celebrates 1-year anniversary.

It's hard to believe it has been one year since we re-branded to Easy Fleet GPS.

This has been a very challenging but rewarding year.

The Easy Fleet GPS family would like to thank all of you for your loyalty and your business. We truly appreciate it.

Do you have trailers in your fleet?

The Easy-360-TT is our trailer tracker specifically designed and engineered for trailers, chassis, and flat-beds.

The device is built to withstand harsh environments and contains internal cellular and GPS satellite antennas.

It requires a 12 or 24-volt power source, but it also contains an internal backup battery that will typically enable the device to function for 60 days without power.

The Easy Fleet GPS platform allows you to monitor vehicle battery voltage.

You can proactively monitor and maintain your vehicle's battery.

From the landing page click the binocular button, check voltage, and hit the **X** in the upper right to save and close. Now every time you log in, you will see the battery voltage.

You can also set an alert and receive an immediate notification when the battery drops below a certain voltage.

Now you can charge or replace the battery before it dies, avoiding breakdowns and downtime.

Vehicle	Status	Address	Voltage
Out of Service	Offline 17.9 days	Easy Fleet GPS HQ	0.0
Truck # 80	Stopped 16.4 hrs	Easy Fleet GPS HQ	12.4
Truck # 90	Stopped 13.8 hrs	Klamath Rd, San Luis Obispo, CA	12.5

FEATURED PRODUCT - WATCHCARD

GPS tracking and the use of a fuel card can reduce your monthly fuel cost by 20-25%

Watchcard Fleet Fuel Cards allow you the convenience and flexibility to fuel anywhere in the U.S. with the control and security to monitor and limit fuel and non-fuel purchases, identify suspicious activity, and access fuel data about your fleet.

This integrated solution will even tell you if a fuel transaction occurred without one of your vehicles being present or if the quantity of fuel purchased exceeds the fuel capacity of the vehicle being filled.
