## Do Easy Fleet GPS customers have peace of mind? YES!

Yes, Easy Fleet customers are this happy.

Businesses that use our service know they are doing everything possible to ensure they are building a safe and responsible fleet of drivers. Also, through using our solutions, they are reducing the costs associated with managing a fleet in order to help their company be more profitable.

Our customers experience ROI in the first 30-45 days of using our service.

In a recent survey by the Department of Motor Carriers, 98% of GPS customers realized ROI within the first month and a half and view GPS fleet tracking as an invaluable tool in reducing overall fleet costs, improving driver safety, and increasing productivity.

Also, our customers have peace of mind knowing

that their vehicles are healthy and well-maintained, reducing the chance of mechanical failures and keeping their employees safe. Fleet managers and business owners can rest easy that they are doing everything possible to protect their employees and the reputation of their company, by monitoring speeding and all aspects of driving behavior.

## Can Easy Fleet GPS help reduce overtime costs and payroll expenses? YES!

Payroll costs are one of the highest costs for a company. Yet without employees, a company will not be productive. The challenge for most companies is how to balance and manage payroll costs, overtime costs, and ensure their employees are actually working, especially when an employee works in the field.

On a regular basis, we hear from employers that they are not sure where their employees are and whether they are working or being unproductive. Another major concern is monitoring side jobs, where the employee collects cash, yet uses the company's materials and assets to perform a personal job either during working hours or during off-hours.

## Driver-Employee Satisfaction.

Employees are a company's best asset. Take care of your employees and they will take care of your customers.

In this face-paced world, companies are looking for tools that will make them more productive, and more profitable while reducing costs. Companies with fleets are using GPS tracking solutions to achieve these goals, and provide a world-class experience to their customers.
