

# The Tracking Times

Easy Fleet GPS launches one of the most advanced Safety Telematics Video Cameras with Artificial Intelligence.

The Easy Fleet GPS AI SafetyCam offers fleets of all sizes a powerful device to enhance driver and fleet safety.

Designed using first-hand insights from fleet managers, it is equipped with road facing and driver facing HD cameras, providing fleets with access to live and recorded video evidence of harsh driving incidents and traffic violations.

Using artificial intelligence and computer vision, the Easy Fleet GPS AI SafetyCam detects stop sign violations, stop light violations, reckless driving, tailgating, collision awareness, and much more.

**Did you know that Easy Fleet GPS offers over 40 reports that can be automated?**

Easy Fleet GPS offers over 40 reports! You have access to these reports 24/7 and 365 days of the year.

You can run a report at any time, as well as set up automated reports to be emailed daily, weekly, or monthly. Whether you are looking to track monthly miles, driver behavior, speeding, landmark activity, trip details, engine hours, or almost anything associated with the events of your vehicles, Easy Fleet GPS has a report

for you.

We offer detailed reports and summary reports. Please contact us for any assistance accessing the reports.

- Start Time: 12:00 am
- Stop Date: September 16, 2020
- Stop Time: 11:59 pm
- Buttons: Get Report Now, Get Printable Report (PDF), Get Spreadsheet Report (CSV)

## Proactively monitor your vehicle's battery voltage.

Did you know that the Easy Fleet GPS platform allows you to monitor the voltage on your vehicle's battery?

Yes, our platform allows you to monitor your vehicle's battery voltage from the mapping page, and you can also receive an immediate notification if the battery voltage drops below a certain level.

This way, you can proactively charge or replace an old battery to prevent downtime. Please contact us if you need any assistance viewing the voltage or setting up an alert.
