DEVICE DESCRIPTION

The **Easy-250-EQ** is our equipment tracker specifically designed and engineered for all powered assets. The device is built to withstand harsh environments and contains internal cellular and GPS satellite antennas. It requires a 12- or 24- volt power source, but it also contains an internal back up battery that will typically enable the device to function for 1 year without power.

KEY FEATURES/BENEFITS

- Reports every 10 minutes when equipment is on.
- When Ignition is turned off it will report total engine hours used and distance traveled.
- Low power consumption when in sleep mode and will wake up to report in once a day.
- TOW alerts occur when equipment is moved without the ignition ON.
- Power Disconnect alert - If the 12V or 24V power pack is removed from the device.
- Low-battery notification and voltage monitoring.
- Ability to monitor PTO (Power Take Off) activity.
- Internal backup battery when power is disconnected.
