EasyFleetGPS
"Keeping Your Fleet on Track"

FLEET

easy-150

DEVICE DESCRIPTION

The **Easy-150** is designed and built with the quality components needed to meet the high reliability and the large amounts of data required to meet the robust needs of continuous fleet tracking.

KEY FEATURES/BENEFITS

➢ Reports every 1 minute plus heading changes > 20°.

➢ Internal dual cellular and GPS satellite antennas reduce installation time, improves cellular signal reception, and better supports a covert installation.

➢ Internal battery back-up allows us to report even if the device power is compromised, tampered with, or disconnected.

➢ Capable of storing and forwarding all satellite tracking data (once the device recognizes cellular connectivity) up to 2,000 data points (which is critical, when any vehicle travels beyond a cellular network).

➢ Includes, "smart power management" which allows the device to recognize when a vehicle is turned off which triggers the device to go into a sleep mode, which will significantly reduce the possibility of the device causing any vehicle battery issues.

➢ Utilizes the 4G LTE CAT 1 cellular networks to transmit all the vehicle generated data (an unlimited cellular data plan is included with your service). Which includes the best coverage of AT&T and Verizon (in that network order) and when in Canada, the device will utilize the Telus cellular network however the device will not function in Mexico, Latin America, or the Caribbean markets.

➢ Built Rugged and Secure – advanced security protocols and is RoHS, Reach and SAEJ1455 compliant.

TARGET MARKETS

- Construction
- Dry Cleaning
- Electrical
- Equipment Rental
- HVAC
- Landscape
- Masonry
- Moving
- Paving
- Pest Control
- Plumbing
- Security Patrol
- Sewage/Water
- Snow Removal
- Transportation
- Tow
- Utility
- Waste Management
- And more

FLEET

DEVICE SPECIFICATIONS

Size: 103mm x 53mm x 21mm
Weight: 70 grams
Operating Temp:
    Powered: -40°C to 85°C
    Storage: -45°C to 90°C
Wireless Specs: Global LTE Modem
    Cat 1
    Global Bands: 2,4,12,13
Operating Voltage: 7-32VDC
    (i.e. 12 & 24v VDC vehicles)
 - Tracking Mode <70mA avg @ 12v
 - Idle Mode   <14mA avg @ 12v
 - Sleep Mode   <2mA avg @ 12v
Location Accuracy: +/-2.5m CEP
Internal Back-up Battery: 1.5Ah
Certifications: FCC, CE, IC, PTCRB, RCM
Device LED's: 2 LED's
Internal Antennas:
    Cellular & GPS

DEVICE SOFTWARE HIGHLIGHTS

➢ Web based; providing access to your fleet information limited only by your access to the internet; including a mobile application that will auto size for smartphone or tablet.

➢ Fleet tracking updates every 1 minute + turns >20°

➢ UI Map refreshes automatically every 30 seconds

➢ Supports "closest vehicle" worker dispatch functionality. Which provides accurate ETAs, reduces wasted time between jobs and improves customer relations.

➢ Provides real-time location, speed, heading, stopping and mileage reporting.

➢ Track maintenance schedules based upon real time mileage information.

➢ Provides hard braking, hard turns and hard acceleration information to help eliminate unsafe driving behavior.

➢ Monitor idling to reduce fuel and unnecessary wear on your vehicle.

➢ Provides exact arrival and departure data relative to any task, which will increase billing accuracy and reduce billing write-offs and disputes.

➢ Provides the ability to create customized zones (landmarks) and receive data relative to the entering, exiting and time spent within each customized zone.

➢ Mapping with Google Street View and Google Earth integration.

➢ Unlimited users (no additional software license fees or charges).

➢ Custom Map Icons (including the ability to input actual photos of each of your vehicles and drivers).

➢ Provides 24 months of historical tracking data on the reporting suite. Visually, you have access to 6 months data via our mapping tab.
