Reduce your gas bill by 20 to 25% monthly!

Are the current gas prices hurting your business?

Easy Fleet GPS offers many solutions to help reduce your fuel costs by 20-25%.

Monitor idling. Did you know one hour of idling equals one gallon of gas?

Through our automated reports and immediate notifications, you can reduce your fleet's idling and reduce

your fuel costs.

Monitor speed. The faster a vehicle travels, the more gas is used. So a truck traveling 80 mph will use up more gas than a vehicle traveling 65 mph.

Keep your drivers and company safe this summer.

The Easy Fleet GPS AI SafetyCam offers fleets of all sizes a powerful device to enhance driver and fleet safety.

Designed using first-hand insights from fleet managers, it is equipped with road-facing and driver-facing HD cameras, providing fleets with access to live and recorded video evidence of harsh driving incidents and traffic violations.

Using artificial intelligence and computer vision, the Easy Fleet GPS AI SafetyCam detects stop sign violations, stop light violations, reckless driving, tailgating, collision awareness, and much more.

Easy Fleet GPS offers tracking solutions for your heavy equipment, trailers, and assets.

Easy Fleet GPS also offers tracking solutions for your assets, trailers, and equipment. It is equally important to track your assets and equipment as it is to track your vehicles.

You receive the same benefits of vehicle tracking with real-time data showing where your assets are located at any time.

You can also track its use which helps you determine if you have any specific asset that is being underutilized.
