

The Tracking Times

Easy Fleet GPS helps recover a \$50,000 generator!

Recently one of our customers had a \$50,000 generator stolen from a job site. Through the use of our after-hours and landmark alerts the customer received an immediate text notification that his generator left the job site during non-working hours.

The generator was recovered within 60 minutes.

This saved the customer from filing an insurance claim and seeing an increase in their insurance premium.

Also, the generator was returned to the job site so there was no downtime or loss of productivity.

Easy Fleet GPS continues to help customers lower their fuel costs!

Are the current gas prices hurting your business?

Easy Fleet GPS offers many solutions to help reduce your fuel costs by 20-25%.

Monitor idling. Did you know one hour of idling equals one gallon of gas?

Through our automated reports and immediate notifications, you can reduce your fleet's idling and reduce your fuel costs.

Monitor speed. The faster a vehicle travels, the more gas is used. So a truck traveling 80 mph will use up more gas than a vehicle traveling 65 mph.

Easy Fleet GPS partners with ehs International to keep your employees safe!

ehs International, Inc (ehsInc) has been at the forefront of environmental and occupational health and safety since 1997. Our mission is to provide our customers, and their employees with a safe, sustainable, and productive environment. We help our customers reduce costs and risks through better technology, seasoned staff, and tested processes.

ehsInc provides a single source for our client's environmental, health, and safety compliance and training needs. We deliver the following services:

- Develop Health & Safety Programs
- Manage Compliance & Reporting
- EHS Compliance Across All Operations
- Develop & Conduct Site-Specific Training
- Provide Outsourced EHS Support
- Construction Site Inspection & Support
- Assessment of Current Safety Programs
- Subcontractor Site Safety Orientations
- Job Site/Facility Hazard Assessments
- Safety Program Record-keeping

The National Highway Traffic Safety Administration estimates that 42,915 people died in motor vehicle traffic crashes in 2021, a 10.5% increase from the 38,824 fatalities in 2020.

Enough is enough! Let's work together to lower these statistics. Get the best fleet management tracking software around through Easy Fleet GPS while receiving the best employee defensive driving training with ehsInc.

Together we will help lower your insurance premiums and ex-mods. It's truly a win-win.

When it comes to elite fleet management, ehsInc and Easy Fleet GPS have you covered!

Easy Fleet GPS offers tracking solutions for your heavy equipment, trailers, and assets.

Easy Fleet GPS also offers tracking solutions for your assets, trailers, and equipment. It is equally important to track your assets and equipment as it is

to track your vehicles.

You receive the same benefits of vehicle tracking with real-time data showing where your assets are located at any time.

You can also track its use which helps you determine if you have any specific asset that is being underutilized.
